### 9 David Fiuczynski & Rufus Cappadocia *KiF* (Fure)

*KiF* is one of the most twisted, fascinating releases of the past couple of years. Fiuczynski on fretless, fretted, and 12-string quartertone guitars, and cellist Cappadocia, are joined by Screaming Headless Torsos drummers **Gene Lake** and **Tobias Ralph**, as well as percussionist **Daniel Sadownick**, for some mind-blowing, globetrotting, other-worldly music that sounds at times like Loony Tunes gone amuck. Highlights include Lake's stickwork on the Robert Fripp-ish "Mektaub" and the manic Middle Eastern-sounding "Phrygianade." Ralph supplies the solid drum 'n' bass groove of "Roxy Migraine" and the light touch on brushes on "Lullaby For Che."
